

Gets Two Years In Penitentiary

One of Lads Who Robbed Bank
Given Life Sentence—His
Crime Record

Ronald Bottrell, of Calgary, 16 years of age, was sentenced to two years in the Prince Albert penitentiary on charges of stealing, auto-bites and breaking into and robbing Jack Elliott, of Calgary, age 14, his companion in crime, who will be tried in the juvenile court in Calgary.

The boys were arrested in Glenora by Sgt. Tomlinson, of the R. C. M. P., on the night of Tuesday, May 26. The Bottrell boy was convicted of stealing an automobile a few months ago, and was given a suspended sentence. His second offence brought a sentence in the penitentiary.

The boys came from Calgary in a stolen car, and in the early hours of Tuesday morning they entered Wm. McLea's law office by the rear door, apparently thinking it was Bulmer's grocery and confectionery store. Discovering their mistake, they tackled the rear door, and breaking it in with an axe and crowbar which they found in McLea's office. They took a quantity of biscuits and chocolates from Bulmer's store, but found no money, as Mr. Bulmer never leaves any cash in the store overnight. Some cash and cheques on Mr. McLea's store were untouched by the young robbers who apparently did not search the premises when they discovered they were in the wrong place.

The boys drove off in an easterly direction, and in endeavoring to avoid the main highway they became lost near the Bow river. They worked their way back to Calgary where they stole a Chevrolet car and proceeded to Glenora. They were picked up in Glenora by Sgt. Tomlinson that night. Reg. J. N. Cawley, A. P. P. of Bassano, and T. J. Hargrave, town constable, went to Glenora following the arrest, and there the boys confessed to the Bassano robbery.

Countess News

COUNTRESS, May 30.—There will be Sunday school at the Countess Hall Sunday, June 2nd, at 2:30. Mr. Graham will preach at 3:30. All are invited.

Mr. Graham, who arrived in the district this week to preach at Rosemary and Cochrane during the summer months, was calling at Countess the last of the week.

Mr. and Mrs. Royal Burrows and family took in the Stampede at Hussar May 24th.

Mr. and Mrs. P. T. Smith have their household goods all packed and are shipping them to Lamont, Alberta, where they expect to reside. Mr. and Mrs. Smith left by auto on Thursday.

Alden Smith was a visitor at A. Matlack's on Sunday.

Jeanne Gamble took examinations in music at Bassano on Monday.

There will be a dance at the C. C. Club House Friday, June 7th. Bassano music.

Mr. and Mrs. P. T. Smith were guests for dinner at the Anderson home Wednesday evening.

Through the kindness of Mr. Sarge the kiddies at the Countess were given a treat when they listened to the Empire Day radio program broadcasted Thursday, May 23rd.

Mrs. E. R. Heid and daughter May were visitors at the Slus home on Sunday.

Gert, Darrel and Norman Gamble spent a day in Gem where they were fishing.

Rosemary News

ROSEMARY, May 30.—Mrs. F. O. Eaton, president of the Ladies Social Club, was taken ill at her home last Friday. She was taken to the Bassano Hospital where she underwent an operation for appendicitis on Saturday. Her many friends wish her a speedy recovery.

Sand McCullin left last week for C. B. where he intends working for the C. P. R.

A number of Rosemary young people attended the dance in Brooks Friday evening.

Fred Pickett, of Arrowwood, was in the Colony this week.

Mrs. Stuckey's mother, Mrs. Hopkins, left last Tuesday for Toronto where she intends making her home.

Dora McCullin expects her parents and younger sister and brother to arrive from Scotland about the 15th of June. They will make their home on the old Wagon place.

Mr. Odegar, of Brooks, spent several days visiting with his daughter, Mrs. Ralph Edwards.

Mr. and Mrs. Robinson enjoyed the radio program broadcasted last Thursday afternoon, May 23rd, under the auspices of the provincial department of education.

Miss Faye Robinson spent the week end visiting friends in Calgary.

Mr. and Mrs. Simmons and family motored to Bassano Sunday.

Mr. and Mrs. Roy Bestman were dinner guests at the Tautsch home last Sunday.

C. Graham, Bible Student from Montreal, arrived on last Friday night's train and will conduct services in the schoolhouse every Sunday at 11 a.m. Officers will be elected Sunday.

Striking photo of Toronto's new waterfront hotel in Hanlan's Point. The latest C.P.R. hotel, the Royal York, stands out prominently in the centre with the new Star building directly behind it and the City Hall clock tower. On the right are Toronto's original skyscrapers at the corner of King and Yonge.

Gem News

GEM, May 30.—Wednesday, July 31st, has been chosen as the date for the Gem sports. This was decided at a meeting of the executive held on Tuesday evening at the home of Mr. Douglas.

A lengthy and varied program of sports is being prepared. A dance will be held in the school house on Friday, June 14th, in aid of the sports day fund.

Faber Arensmaut has been visiting the Colony since Tuesday.

Mrs. Jacob left Wednesday for Los Angeles and Denver. For the past few months she has been the guest of her daughter, Mrs. Seifried.

Mrs. Horne and Miss Anna Sandahl were visiting in the Colony over the week-end.

Joe Maguire, of Calgary, spent the week-end at the home of his parents.

Mrs. Hughes, of Blindfold, will arrive Thursday for a visit with Mrs. Keeling.

Many Gem people attended the Hussar stampede last Friday, May 24.

The Mennonite church services last Sunday were well attended.

Lawrence Schreiner is home from the Bassano Hospital.

Crops in Gem are looking splendid, and gardens are coming along fine.

Mrs. Doodie is ill with the flu.

Frank Clemens is sick with the flu.

Mrs. Tets and children were callers at the home of Mrs. Maguire on Saturday.

ected next Sunday, June 30, to take charge of the Sunday school.

The house recently vacated by Mrs. Hopkins has been bought by Mah Auk.

Mr. and Mrs. Park, Mr. and Mrs. P. Adams, motored to Bassano Sunday evening to see Mrs. Eaton.

Mr. and Mrs. Jones and Iris spent Sunday evening at the home of Mr. and Mrs. Stuckey.

Mr. and Mrs. Wm. Tautsch were business visitors to Durban last Saturday afternoon.

Mr. and Mrs. Glendie and baby Clare motored to Calgary on Friday returning Sunday.

Three Thousand People Attend Hussar Stampede

Large Crowd Throngs Stampede Grounds in Spite of Dust and Disagreeable Weather—Fine Program of Sports

HUSSAR, May 29.—More than three thousand people attended the seventh annual stampede and carnival held at Hussar on Friday, May 24th. The wind blew all day long, and at times the air was so heavy with dust that it was hard to discern the horses and riders. In spite of this drawback the crowd stuck by, and the day was a splendid success.

The children's sports were run off as per schedule, with E. N. Rife in charge. The stampede events, with Frank Wolfe as manager, were run off without a hitch and in good style.

Leo Watrin, High River, rode the first money in the saddle bucking contest, with Sykes Robinson coming second and Norman Edge third.

The Canada Kid won first place in bareback bucking. Lester Snyder led the cowboy race, and Max Three Sons took first money in the free for all.

The complete list of prize winners in the stampede events, the athletic competitions, and the children's races, is given on the inside pages of this issue of The Mail.

The stampede judges were, Jap Fryberger, of Gem, Bert Hancock, of Carstairs, and Tom Lawson, of Hussar. Archie Ferguson, of Calgary, was announcer.

Water Peak, in charge of the bucking horses, had a good bunch of buckers as was ever seen at a stampede. There was only one re-ride for the events.

There were 19 entries for the saddle bucking, 29 for the bareback, and 17 for the wild horse events.

The riders in the bucking stunts were Norman Edge, Sykes Robinson, Leo Watrin, Jimmy Mooney, and Joe Fisher.

The following riders of note were entered for the bucking contest: Leo Watrin, of High River, Canadian champion; Slim Watrin, of High River, North American champion; Pete Knight, of Crossfield, British American champion for 1937; Sykes Robinson, of Jenner, Norman Edge, of Carstairs; Red Dore Kid, of Hussar; Joe Fisher, of Kew; Canada Kid, of Calgary; Eddie Watrin, of Hussar; Frank Rhar, of High River; Geo. Mason, of Carstairs; Lawrence Page, of Drumheller; Society Kid, of Hussar.

Bert Young, of Hussar; Henry Peterson, of Bassano; Geo. Mackintosh, of Big Valley; Bow River Kid; Jack Hill, of Calgary; Frank Shields, of Chilly; Walter Mason, of Calgary; Freddie Cayman, of Wray; Charlie Cutler, of Glenora; Bill Johnson, of Calgary. The only rider of note not present was "The Mayor of Calgary."

The race track was dragged in the morning, and was in good condition. The races were unusually good, especially the ladies' half mile race and the Roman standing race.

Trailing the weather into consideration the refreshment and carnival booths were well patronized. Mr. Bishop, of Hussar, had charge of the carnival.

The day passed in a very orderly manner, and much credit is due Sgt. Cawley and his assistants.

The gate receipts amounted to \$17,378.

The dance was a decided success, more than 700 people attending. Receipts were \$25.00. The Drumheller orchestra proved themselves to be "regular fellows," and their music was first class.

The Ladies' Aid had a booth on the grounds for refreshments, and also served supper and refreshments at the hall kitchen. They took in more than \$275.00.

Hussar News

HUSSAR, May 29.—H. B. McKinnis purchased a Chevrolet sedan last week. On Thursday he motored to Calgary, accompanied by Mrs. McKinnis and her daughter, Mrs. Glen LePore and baby daughter. Mr. and Mrs. Aker returned from Calgary with them to spend the week here and attend the stampede, returning on Sunday.

Constable Batts, of Glenora, was in Hussar on May 23rd, and tried a case re Workmen's Compensation Act before Justice of Peace J. M. Wheatley. One garage owner was fined for not having reported under the provisions of the act.

Mr. and Mrs. Dave Cyr were in Hussar on the 23rd.

The Hussar health officer has a phone now, No. 27. It was installed last Monday.

Mr. and Mrs. Middleton and little son came down from Calgary on Thursday to spend the week-end with Mrs. Macdonald and Miss Edna, and attend the stampede.

Mr. and Mrs. H. G. Angell and some of Hussar attended the stampede on Friday.

Mr. and Mrs. T. Ingeberg and family, of Hussar, were visitors at the stampede on the 23rd.

R. O. Swan returned from Calgary on Wednesday.

Worthy Hoover was visiting his parents, Mrs. F. G. Purley, on the 24th.

Mr. and Mrs. R. C. Armstrong and daughters, and Misses Lillian Hayes and Mabel Snyder, motored down

Bassano Ball Team Loses Two Games

Bears Hare Not Hit Their Winning Strike Yet

A number of costly errors lost the Bassano team the first two scheduled games in the Bow Valley League. The first game was with Blackie on the Bassano diamond last Sunday afternoon when the local boys lost out by the score of 11-8.

The Bears hit well, and had the score tied 4-4 in the fifth inning, but Blackie bunched a number of hits in the next two frames and coupled with a number of errors they scored seven more runs.

Jacky Bulmer pitched the game for Bassano. The visitors coupled up a number of hits in the first and second innings, but Bulmer settled down to steady pitching for the rest of the game excepting the seventh chapter.

Ralph Burrows played a nice game, getting a three base hit and a couple of singles. Cobby Hornsby caught well behind the bat, but was a little untidy on his pitches to second base.

He poked out a three bagger, and also got a single. Artie Simpson also hit well, and Roach, Royal Harrows, Runlans and Bulmer all connected with the horsehide for safe hits.

The Blackie team played a snappy brand of baseball, and had some dangerous batters.

A large crowd of fans turned out to see the game.

The score by innings:

Blackie 100 050 200 - 11
Bassano 010 050 201 - 3

Queenstown Game

The Bears played in Queenstown Wednesday evening, May 29th, losing by 9 runs to 13. Ted Vockerott pitched the first six innings for Bassano, and Bulmer finished the game.

Vockerott is a southpaw, and heaves a "mean ball." With more practice he should develop into a real good pitcher. Lloyd Leonard played at Queenstown, and turned in a nice game.

From Calgary on Friday to attend the stampede and visit with Mr. and Mrs. C. W. Hayes.

Miss Mabel Snider, who has been in Hussar for the past year, was returned home for her vacation.

Miss Opal Hale was in Hussar over the week-end and visiting Jessie and Nancy Elliott and other friends at the stampede.

Mr. and Mrs. J. M. Wheatley and son, of Chancellors, were among the visitors at the stampede on Friday.

Miss Gladys Hayes, Roy and Ruth Gayford visited at the C. W. Hayes' home on Friday.

The Queenstown team won the game on the 24th, score 16 to 1. Raymond Walters was on the Queenstown team, so Hussar people were particularly interested.

Miss Gladys Smith continues too ill to take up her work, so Miss Evelyn Clifford is still teaching the Winter Hills school.

DRILL WELL AT CREAMERY

W. A. Brodie, proprietor of the Bassano Creamery, is having a deep well drilled at the creamery. The well is to obtain a supply of very cold water with which to cool the cream.

Wheat Registers Rapid Growth

Seedling of Coarse Grain is Practically Finished

Warm, sunny weather during the past week has stimulated rapid growth of the young wheat crop, and the grain is now six or more inches high in the most advanced fields. A heavy rainfall early last Saturday morning brought another half inch of moisture to the Bassano district, and good rainfall is also reported at Hussar, Maplelake, Gem, Cochrane, and other points.

With an abundant supply of moisture in the ground, and plenty of sunshine, the 1929 wheat crop is off to a start under ideal conditions.

In the Bassano and neighboring districts the rainfall has been abundant, and farmers in the irrigation block have had no need to irrigate the grain.

Seedling of oats for grain is completed, and most of the oats for green feed are in. The rye acreage is small this year.

Alfalfa is coming along fine, and so far as we can learn, there was little, if any, winter killed.

The soil is in good condition for plowing, and some breaking is being done.

WILL INSTAL MOVIEPHONE IN BASSANO THEATRE

Manager Ubertino Keeping Up With Progress of the Times

P. Ubertino, manager of the Gem Theatre, announces that he will soon instal moviephone equipment in his Bassano theatre. He is not yet prepared to announce the date of the first moviephone program, but he is trying to have the new sound equipment ready first by Saturday next week, June 7 and 8, for the famous air spe, "Lila Time."

In putting moviephone in the Gem Theatre Mr. Ubertino is keeping up with the progress of the times. Only a few towns in Alberta, have the moviephone, so Bassano will rank among the first to have this newest innovation in moving pictures.

Intensely Dramatic and Human Interest Post War Story

"Land of Hope and Glory" is British Film

Three of the sons leave for three widely separated parts of the empire, and the other two sons remain in England. One of these invents a new airplane engine.

New Road the efforts of a foreign power to obtain the plans, much of the story turns.

Miss Gladys Hayes, Roy and Ruth Gayford visited at the C. W. Hayes' home on Friday.

The Queenstown team won the game on the 24th, score 16 to 1. Raymond Walters was on the Queenstown team, so Hussar people were particularly interested.

Miss Gladys Smith continues too ill to take up her work, so Miss Evelyn Clifford is still teaching the Winter Hills school.

Hon. Robert Forke Expresses His Views On Immigration Question

Ottawa.—The national development immigration scheme proposed by General A. D. McFadden (Conservative, Vancouver North), is so vast and expensive that it should be carefully analyzed, declared Hon. Robert Forke, minister of immigration, in the House of Commons when he replied, for the government, to the Vancouver member's want of confidence motion, which calls for the immediate reorganization of the department of immigration and colonization, moved in the House.

So far as he himself was concerned, he had his doubts as to the practicality of the McFadden scheme, said Mr. Forke.

At least, Mr. Forke said, the member for North Vancouver had been something to offer on the subject of immigration, and his remarks were not negative in character. It was not hard, though, for a person to sit down and evolve a plan of immigration. Mr. Forke did not believe, though, that any scheme involving the expenditure of many millions of dollars would be successful.

He did not think that the settler loaded up with too heavy a financial load, had nearly the same chances for success as one who came slowly. He saw difficulties in respect to the cost of clearing the land in the Peace River district.

He did not wish to say that he was opposed to immigration, Mr. Forke continued. Immigration of the right sort was necessary, but he did object to the bringing to Canada of a greater number of persons than could be absorbed in the industries of the nation and its rate of growth and expansion.

In order to alleviate the fear that Canada was becoming overpopulated, Mr. Forke asserted that 78 per cent of the present Canadian population was Canadian born, 12 per cent were British born and only ten per cent, was of foreign origin.

He would answer the allegation that thousands of Canadians had left Canada for the United States in recent times, by showing, he said, the comparison between the immigration and that of 1924. In 1924, 148,560 immigrants had come to Canada, while 150,000 had left for the United States. Certainly the tide had changed. Even if the Washington figure of 72,000 were correct, and he doubted its correctness, he would be of persons leaving Canada for the United States today, had been decreased very materially.

Power Permit Given To British Company

For Development Of White Mud Falls In Manitoba

Ottawa.—The Dominion government has granted a permit for the development of White Mud Falls, in northern Manitoba, to the British Dominion Power Company (Canada). This was stated at the office of the minister of the interior.

It is understood that the permit is to continue in force for one year and at the end of that time the company is prepared to proceed with development, a lease will be issued.

The permit was granted following an expressed request of the Manitoba legislature. A resolution, moved by Premier John Bracken, requested that a priority permit be granted the British company.

Postmen In Civil Service

Ottawa.—V. C. Phelan, president of the Civil Service Federation, has announced that the Federated Association of Letter Carriers has affiliated with his organization. The Letter Carriers' Association has been in existence for more than 25 years and withdrew from the Civil Service Federation seven years ago.

Child Killed By Street Car

Edmonton.—Juni Dewitt, three-year-old daughter of Lieut. L. B. and Mrs. Dewitt, was instantly killed when a street car passed over her body. The child had run under the car as it was standing and was killed when it moved forward.

Workman Killed At Victoria

Victoria, B.C.—Charles Watson, of Vancouver, was instantly killed when he fell from the fifth floor of the new addition to the Empress Hotel, a distance of 100 feet. He was an employee of the Dominion Bridge Company.

A Day Of Thanksgiving

From 10 to 12 Unofficially Announced As Date Of Thanksgiving For Recovery Of King

London, England.—It is understood that Sunday, June 16, has been selected as the date for King George VI's appointment as a day of thanksgiving for his recovery from his recent grave illness.

The programme, an unofficially forecast, contemplates a special service at Westminster Abbey, attended by the King and Queen and other members of the royal family, to which the public will be admitted. It is recalled the King, in a special message from Craigwell House on April 22, said he looked forward to joining with his people "on some appointed day" in thanking God not only for his own recovery, "but for the new evidence of growing kindness significant of the true nature of men and nations."

Seeking Air Mail Route

Swedish Aviator Thinks U.S.-Canadian Service Possible

Stockholm.—A possible summer route for air mail services between the United States and Scandinavia is being sought by Capt. Aldin A. Renberg, Swedish flyer, who hopes to set out about June 3, on a three-stop flight from Stockholm to New York via Copenhagen. He believes it is practicable to operate an air mail service along the northern route between mid-April and mid-September.

The hop, skip and jump trip to New York should take about three days, Renberg thinks.

CANADA WILL NOT BAN LIQUOR CLEARANCES

Ottawa.—The government of Canada is not disposed at present to accede to the suggestion that it should ban liquor clearances as followed by the United States. The S-12 caught the signals, but on the S-11, after the first call from the S-12, the rescue ship Malvern started for the spot and sighted the submarines at 10:30 a.m. Twenty-five minutes later a grapple had been hooked on to the muck submarine.

The attitude of the government on the question of refusing clearance to liquor cargoes was indicated in the House by Hon. W. D. Porter, minister of national revenue. Mr. Porter spoke in reply to speeches by J. S. Woods, Liberal, and J. S. Woods, Conservative, and others in the Progressive and U.F.A. ranks, in which the statement was made that Canada was guilty of an unfair act in not acceding to the United States request.

Porter explained that the purpose of the bill was to require persons seeking to clear liquor shipments, this country would require a new and larger preventive force in order to enforce the law.

The minister pointed out the difficulties which inevitably arose when a country law was located next door to a country which had the same nature and sale of liquor.

He expressed doubt as to whether refusal of clearances would result in stopping the flow of liquor into the United States. He pointed out that if Canada was to amend the Customs law so as to refuse clearance to liquor shipments, this country would require a new and larger preventive force in order to enforce the law.

DELEGATE TO INTERNATIONAL SUFFRAGE ALLIANCE

John H. Smith, of Vancouver, has been selected as a delegate to the International Suffrage Alliance in London, England.

The programme, an unofficially forecast, contemplates a special service at Westminster Abbey, attended by the King and Queen and other members of the royal family, to which the public will be admitted. It is recalled the King, in a special message from Craigwell House on April 22, said he looked forward to joining with his people "on some appointed day" in thanking God not only for his own recovery, "but for the new evidence of growing kindness significant of the true nature of men and nations."

Joint Radio Control

Plan Is Endorsed By The Royal Society Of Engineers

Ottawa.—Joint control of radio broadcasting by the federal and provincial governments, with special references given to educational programs, public information and entertainment, was endorsed as the best policy for the Dominion at a session of the Royal Society of Engineers.

Another feature of the day's proceedings was the reading of a recommendation submitted by a sub-committee which would have limited the printing of misleading papers in the official journal of the society.

The decision concerning radio control, made in response to a request by the Royal Commission on radio, for the society's opinion, was reached largely as the result of a report made by Dr. H. M. Torg, head of the Federal Research Council.

Mr. Canille Roy, director of Laval University, delivered his presidential address, in which he urged the society as a model for development of cooperation among all the races and intellectual spheres from coast to coast in the Dominion.

Following his address, Mr. Roy presented the Sir Joseph Flavelle medal for outstanding paper in the series of Dr. A. H. R. Butler, University of Manitoba, and announced that the J. B. Terrell medal for outstanding work in connection with the history of Canada had been awarded to Prof. George M. Wrong, University of Toronto.

Many Changes In The Canada Grain Act Now Recommended

Motion Was Defeated

Sales Tax On Clothing, Boots, and Shoes Will Be Continued

Ottawa.—Abolition of the sales tax on clothing, boots and shoes was advocated, an amendment moved in the House of Commons by I. D. McLaughlin, Conservative, Independent. The amendment of Mr. McLaughlin was moved on a motion for third reading of the special was revenue act bill.

The amendment was defeated by 54 votes to 111 following a short debate. The Conservatives voted solidly for it, but the remainder of the House, including the U.F.A., Progressive and Labor members, joined with the government supporters in defeating it. The amendment of Mr. McLaughlin was moved on a motion for third reading of the special was revenue act bill.

Many Changes In The Canada Grain Act

Sales Tax On Clothing, Boots, and Shoes Will Be Continued

Ottawa.—Changes in the Canada Grain Act were recommended to the consideration of the agricultural committee of the House of Commons by the board of grain commissioners, Leslie Boyd, chairman, and Matthew Snow, members of the board, were before the committee to explain and amplify their suggestions. The committee will further discuss these recommendations.

Many of the changes in the act suggested by the board would increase its power as against the present provisions requiring the order of the governor in council. The changes would facilitate the administration of the act without so often appealing to Ottawa.

Another recommendation was that the testing laboratory be under the supervision of the National Research Council instead of the grain board. Although it was pointed out that the rate of commission charged on milling grain had been fixed by the board, the committee took the view that the act should not be changed to relinquish such right to the board to regulate such charges if the occasion arose, when it would be advisable.

The question of the "hybrid" tickets issued on just before the committee was completing its session. The board had been blamed on many occasions for the delay in issuing tickets, but the committee was not inclined to believe that those tickets were issued on the ground that they took away from the farmer the right to designate the terminal to which the grain should be shipped.

Trouble In China

British Prepare Defenses In City Of Canton

Canton, China.—British sailors landing from gunboats in the harbor in the Shuguen quarter immediately began construction of defenses in various parts of the English concession.

Gates and bridges were closed and the British police in the city the utmost tension prevailed with attacking Kwangtung troops known to be far away, although there was no definite word as to their position. Sacking of the city, the largest in Southern China, was feared in the event the capture by the Kwangtung element which was being imminent.

The Prince of Wales has again attended the summer sports at the Hault Spring Hotel in the Rockies. The Prince, who is in the Rockies, is accompanied by his wife, the Duchess of Cornwall, and a number of his friends. The Prince and his party are expected to stay in the Rockies for some time.

Two baby black bears were great attractions recently at the Hault Spring Hotel. The bears were brought to the hotel by a hunter from the Hault Spring Hotel. The bears were very tame and were allowed to walk about the hotel grounds. The bears were very popular with the children.

Enough flowers are planted by the Canadian Pacific Railway each year to beautify a couple of cities. The floral branch each year sends out to station agents and employees along the line plants, bulbs, shrubs, seedlings, and seeds by the ton of thousands to decorate the company's right-of-way.

Five railway cars were required to move the equipment of the mammoth Canadian Pacific Hotel recently installed in the new Hault Spring Hotel in Toronto. The hotel is the tallest building in the British Empire.

Tryndall stone, which shows to much great effect at the Hault Spring Hotel in the Rockies, is to be used in the construction of the new building for the T. Eaton Company in Toronto, the first unit of which is now being built.

The year's champion cattle raiser in British Columbia is Annie Turner, twelve-year-old daughter of James Turner, Cadboro Bay stock breeder. Her 14-month-old short-horn steer, sired by Braithill Marquis and weighing around 1,100 lbs., won the grand championship of all breeds at the Kamloops bull sale, and fat stock show.

Each set of equipment of the Trans-Canada Limited and Montclair, and there are eighteen of them, is worth upwards of a million dollars this year, the new rolling stock having added considerably to the value as well as to the attraction of the famous flyer. The C. P. R. Angus Shops at Montreal were busy all winter building special sleeping, dining, and saloon lounge cars for this special de luxe service between Montreal and Vancouver.

The Indian of old could wield a wicked tomahawk, but to-day he can handle a machine gun. The pale-face is threatened on the golf links by Indian golfers and it is likely that at Hault Spring, the Redskins will develop even greater prowess. Indian golfers, it has been decided, are to be used on the eighteen hole golf course at this famous mountain resort, and the rising generation of Stoney Indian braves are likely to become ardent golf fans.

MANY CLAIMS MADE FOR NEW OLDSMOBILE

The new Oldsmobile, a General Motors car, which is now reduced in price, embodies many features of refinement and mechanical perfection which are found only in cars selling at a considerably greater price. With its Fisher body finished in many beautiful color combinations, deeper and softer cushions, roomy and comfortable, its big high compression 8-horse power motor, and other features of advanced motor car engineering, the new Oldsmobile is indeed a car of style and refinement.

One of the fine car features found in the Oldsmobile is the oiling system of the pistons. Oil is forced directly to the pistons by the oil pump, drilled connecting rods, thus ensuring a steady and unfailing lubrication of these parts. The new Fisher adjustable front seat, combined with Oldsmobile's adjustable steering wheel, makes the driving position a matter of individual choice.

ABOUT WEEDS

Editor The Bassano Mail.

Dear Sir:

Weed inspectors have now or will shortly, commence to do their season's work, and are anxious to see their duty and show results for the labor and money expended.

While in the main farmers welcome weed inspectors and take advantage of their services, it is unfortunate that there are many farmers who are still antagonistic.

Weeds appear even with the best of farming, and good farmers, continue with their destruction as they appear from time to time. Other farmers make no attempt to cope with their problem, and so as far as seed land that is left for cropping, with the result of a decreased yield and unprofitable crop. Such a situation is disappointing to the farmer and a source of trouble to the weed inspector and neighboring farmers.

A careful decision should be made as to the advisability of seeding or summerfallowing weed infested lands as the result of seeding such lands is generally an unprofitable crop, and trouble for the weed inspector, but the fact remains that the farmer is himself responsible for that situation and the weed inspector merely attending to his duties.

At this season of the year young plants of milkweed, mustard, and pigweed can be effectively eradicated by the liberal use of the harrow drawn in the same line as the seed. When the match is reasonably dry this will destroy millions of weeds, and may be repeated until the grain is six inches high. As a rule this does not damage the grain, but in weed infested lands where repeated harrowing is necessary it might be advisable to seed a little heavier.

I would ask all farmers, municipal officials, and citizens of city, town, and village, to give weed inspectors your fullest co-operation and support and thereby get the very best results.

My territory this season is larger than in 1928, and I shall therefore be unable to meet you all, and will need all the support that you can give me more than ever. Anyone wishing to get in touch with me can do so by writing or telephoning.

Yours truly,
S. J. EWING,
Field Inspector,
Office of Municipal District of
Blackfoot, Glenora, or Calgary.

A TALE OF THE HAVILAH

Prize Winners At Hussar Stampede

Following is the list of prize winners at the Hussar Stampede held last Friday, May 24th:

Half mile race: 1. David Yellow Horse; 2. Max Cutter; 3. Max Three Sons.

Boys' Half Mile Pony Race: 1. David Yellow Horse; 2. Art Smith; 3. Lorne Moffat.

Demolition Race: 1. Paul Weasel Head; 2. Joe Bear Robo.

Free For All Race: 1. Max Three Sons; 2. Donald McMaster; 3. Art Smith.

Racing with saddle: 1. Leo Watrin; 2. Sykes Robinson; 3. Norma Edge.

Barrel Race: 1. Mark Cutter; 2. Mark Spring Chief; 3. Anthony.

Bucking Horse, bareback: 1. Canada Kid; 2. Jack Hill; 3. Eddie Warbur.

Half Mile Cowboy Race: 1. Lester Snyder; 2. Donald McMaster; 3. Mark Cutter.

Box Race: 1. Donald McMaster; 2. Art Smith; 3. Fred Marquis.

Boys' Call Riding: 1. Fred Marquis; 2. Joe Cayne; 3. Joe Swain.

Ladies' Half Mile Race: 1. Margaret Letrandeur; 2. Clara Munroe; 3. Oly. Harris.

Roman Standing Race: 1. P. Smith; 2. L. Platt.

One Mile Free For All: 1. Lester Snyder; 2. David Yellow Horse.

Wild Horse Race: 1. G. Mcintosh; 2. Lawrence Page.

Girls' Grand Aggregate: winner of medal donated by T. A. Hawkshaw. Lulu Kelly, Lawson School.

Boys' Grand Aggregate: winner of medal donated by T. A. Hawkshaw. Billy Treacy, of Wintering Hills School.

50 Yard Dash, boys under 11: 1. Jim Kelly, Lawson School; 2. James Lawson, Lawson School; 3. Alfred Lawson, Lawson School.

50 Yard Dash, girls under 11: 1. Edna Oster, Fairvale School; 2. Margaret Clark, Fairvale School.

50 Yard Dash, boys under 11: 1. Jack English, Wintering Hills School; 2. Tom Cunningham, Wintering Hills; 3. Glen Treacy, Wintering Hills.

50 Yard Dash, girls under 11: 1. Ruth Brown, Hussar Intermediate; 2. Alice Vandergrift, Hussar Intermediate; 3. Nettie Letrandeur, Hussar Intermediate.

100 Yard Dash, boys under 14: 1. Lorne Moffat, Hussar Intermediate; 2. Ronald Brassard, Hussar Intermediate; 3. Jim Jerry.

50 Yard Dash, girls under 14: 1. Lulu Kelly, Lawson; 2. Lucile Snellings, Sunny Range.

100 Yard Dash, boys, open: 1. Bruce Bell, University; 2. Johnny Moffat, Hussar senior; 3. Herbert English, Wintering Hills.

50 Yard Dash, girls, open: 1. Lucile Snellings, Sunny Range; 2. Lulu Kelly, Lawson; 3. Mona Betty, Hussar Intermediate.

Running Broad Jump, under 12: 1. Lorne Moffat, Hussar Intermediate; 2. Colin Whitford; 3. Raymond Iversen.

Running Broad Jump, open: 1. Bruce Bell, University; 2. John Moffat, Hussar senior; 3. Herbert English, Wintering Hills.

Holey Race, boys and girls: 1. Billy Treacy and Herbert English; 2. Lulu Kelly and Lulu English.

Wheelbarrow Race, 12 and over: 1. Billy Treacy and Herbert English; 2. Jack English and Jimmy Treacy; 3. Karl Snellings and George Vermillion.

Sack Race, 8 and under: 1. Karl Snellings, Sunny Range; 2. Carl Snellings, Sunny Range; 3. Tom Cunningham.

Sack Race, boys 14 and under: 1. Ronald Brassard, Hussar Intermediate; 2. Billy Treacy, Wintering Hills; 3. Lorne Moffat, Hussar Intermediate.

Three Legged Race, 12 and over: 1. Billy Treacy and Herbert English; 2. Jack English and Jim Treacy, Wintering Hills.

Three Legged Race, 11 and under: 1. Tom Cunningham and Pete Boyer; 2. Ronald Brassard and Lorne Moffat, Hussar.

Three Legged Race, girls 11 and under: 1. Alice Vandergrift and Oly. Harris; 2. Edna Oster and Ida Oster, Fairvale.

Three Legged Race, girls 11 and over: 1. Lulu Kelly and Lulu English; 2. Lucile Oster and Margaret Schaffer, High Jump, 34 and under: 1. Billy Treacy, Wintering Hills; 2. Lorne Moffat, Hussar; 3. Colin Whitford, High Jump, open: 1. Bruce Bell, University; 2. Herbert English, Wintering Hills; 3. Frank Betty, Hussar.

Half Mile, open: 1. Frank Betty, Hussar; 2. Homer Moffat, Calgary; 3. Gordon Letrandeur, Hussar.

CROP REPORT

Second fortnightly crop report issued by the Department of Agriculture, Edmonton.

Seeding of wheat has been practically completed here, the province, and approximately 75 per cent of the acreage for oats and barley has been sown, according to telegraphic reports received by the department of agriculture on Monday, May 27. Work has been retarded to some extent in a number of districts in the south, but the remainder of the wheat acreage will be sown within the next few days.

Conditions in a number of northern and central districts have been materially improved by rains during the past week, and little concern is felt over general crop prospects from the moisture standpoint. Germination has been uniformly good and much of the early sown wheat is making rapid growth. Warm weather is required to promote continued growth, especially in areas where seeding has been delayed by a heavy rain.

The season has been somewhat unfavorable for the early destruction of weeds, as growth has been too slow to permit of much eradication by surface cultivation prior to seeding. Some localities report a considerable increase in the acreage of grain stubble in and this will undoubtedly be reflected in greater difficulty in dealing with the weed situation in following years.

Best seeding has been practically finished in the south, and seed has been sown well. Some damage to the young plants is reported as a result of late frosts. A marked increase is noted in the acreage devoted to sweet clover, alfalfa, and the other pasture crops.

A uniformly good stand of crops is reported in the Peace River district where seeding has been completed for some time. All the wheat is above the ground, and oats are making a good showing. The moisture supply in the soil is sufficient to carry the crop for some time, and prospects generally are very promising.

Prospects are making satisfactory growth, and live stock is in good condition. Shearing of farm flocks is expected to start shortly, and under range conditions a start will be made within the next few weeks. Some losses have been experienced in the lamb crop on the range as the result of snow and rain during the lambing season.

British Admiralty Has Brought To Perfection An Electrically Controlled Torpedo

After several years of experimenting with a new type of electrically controlled torpedo, the British Admiralty has brought to perfection a projectile which follows the target and carries sufficient explosive to blow the vessel in two when it scores a direct hit, according to reports heard today.

In a test on the admiralty range in Portsmouth harbor, one of the torpedoes got out of control and tore around the harbor at 40 knots. Fast admiralty vessels chased it, but they could not overtake it and finally the torpedo landed a way mouth beach.

Spectators were not allowed to approach within 100 yards of the mysterious projectile and photographs taken by several persons were confiscated for fear the secret of the torpedo's mechanism might be revealed.

The torpedo is not fired like an ordinary torpedo but is launched into the water. Thus the vessel that is carrying it is able to hide in a cove and destroy the enemy fleet with these electrically guided torpedoes without revealing the torpedo carrier's position by an explosion. Once launched, the torpedo is steered by a small wireless apparatus looking like a two-tube anemometer.

The first current applied starts the powerful driving mechanism of the back of the projectile. As it travels forward, a fine copper wire winds behind it, apparently acting as a sort of anchor. A second wave current controls the steering apparatus which gives the torpedo a direct hit with the target. A third wave, similar to that of an anemometer, gives the operator the check of launching the torpedo over the surface of the water at a tremendous speed or of submerging it several feet in order to make it hit below the water line.

The tests produced amazing results. Several torpedoes were towed out to sea and a torpedo launched many miles away from them. In every case, and there were 14 tests of this kind, a direct hit was scored by the operator who was able to guide the torpedo to within a foot of its target.

The torpedo contains a new and deadly explosive of great strength that several of the target ships were cut in half.

The Weymouth mishap, occurred when the control instrument burst a tube and left the operator unable to guide the torpedo in one direction only. Hence the projectile, made ever widening circles until it was grounded.

The explosion of the torpedo head is caused by the contact of four detonators, two on the head and two on each side. The explosion occurs immediately when any one of these comes in contact with hard objects.

The Explanation

On this trip the crack express had been far from living up to its reputation. First it was in forward yards or so, then back, then stand still, puffing uncertainly, and then begin the same thing all over again. At last one of the travellers lost his patience and summoned the porter.

"What's the matter with this train?" he exploded. "Back up and jerking forward in this awful way."

"It's quite all right, sir," the porter assured him in that soothing way that porters have. "I think the engineer is teaching his wife to drive."

"Do you see that man through the window? He hasn't moved for twenty-four hours. He can't be asleep; he must be dead. I am going to call the police."

"Oh, it's all right. There's a chess tournament going on in there,"

"I have killed five flies, two mosquitoes and three flies."

"How do you know?"

"Two were on the table and three on the looking-glass." "Is that so?"

"Yes, sir."

Make Milling Test

Garnet Wheat Found To Be Inferior To Marquis For High Grade Flour

In color, volume of loaf and gluten-content, Garnet wheat is inferior to Marquis, though the two varieties show no appreciable differences in absorption and bread yield, according to the result of a test completed at the Keweenaw Mill of the Lake of the Woods Milling Company.

"If a high quality of flour is to be a first consideration," states the report of the company's investigators, "we cannot recommend Garnet for our mills. The result of this test further confirms our previous convictions."

To stage the experiment, which gave results in accord with previous tests, a mix of 2000 bushels of Garnet wheat was milled in comparison with Marquis on a commercial basis. "An excellent sample of Garnet was used in the test, weighing 65½ pounds per bushel and averaging 12.5 per cent protein. The Marquis sample weighed 62½ pounds per bushel and averaged 17.2 per cent protein."

Following standard wheat, the company's test states that the variety is considerably from one to two per cent lighter than Marquis and equal to Marquis in all the best baking points. Hope was expressed in the report that agriculture in the future might be able to replace all other cereals.

Winnipeg Newspaper Union

The Winnipeg Newspaper Union, which has been in existence for some time, is now in a position to launch the torpedo over the surface of the water at a tremendous speed or of submerging it several feet in order to make it hit below the water line.

The tests produced amazing results. Several torpedoes were towed out to sea and a torpedo launched many miles away from them. In every case, and there were 14 tests of this kind, a direct hit was scored by the operator who was able to guide the torpedo to within a foot of its target.

The torpedo contains a new and deadly explosive of great strength that several of the target ships were cut in half.

The Weymouth mishap, occurred when the control instrument burst a tube and left the operator unable to guide the torpedo in one direction only. Hence the projectile, made ever widening circles until it was grounded.

The explosion of the torpedo head is caused by the contact of four detonators, two on the head and two on each side. The explosion occurs immediately when any one of these comes in contact with hard objects.

GIRL AVIATOR AND EXPLORER

Martina Hays, girl aviator and explorer, who has left Detroit for Fort Churchill and hopes to eventually reach the Mackenzie River. Miss Hays is ambitious to become a popular writer and much of her aerobical globe-trotting is in search of local color and atmosphere for her future writings. The photographs show Miss Hays in trim flying costume.

No Night Driving In Europe

Almost Impossible For Material To Obtain Service After Dark

There is almost no night driving done in Europe and the motorist continuing out after twilight finds deserted roads, according to the Foreign Travel Division of the American Automobile Association.

The national motor body says: "There is almost no night driving done in Europe. The driver who would like to find himself in a deserted road. Everything is closed up. Houses and shops are darkened. The only sign of life comes from the lights of a few houses and the lights of a few cars on the highway."

Without the use of a single nail or screw, Burton has constructed a table that many antique collectors would like to have. The table is constructed of 1,557 pieces of wood, 17 different kinds being used to give the desired color and texture.

Attractive in its simplicity, the unique table contains but three designs, the Marquis and compass, composed of 62 pieces of wood, and the American legion emblem.

Blair is a World War veteran. He began work on his table October 5, 1925.

Three Years Making Table

Ohio Man Used 1,557 Pieces of Wood But No Nails

Three years of tireless effort have made Burton W. Blair, Marion, Ohio, the possessor of a library table that is considered a work of art.

Without the use of a single nail or screw, Burton has constructed a table that many antique collectors would like to have. The table is constructed of 1,557 pieces of wood, 17 different kinds being used to give the desired color and texture.

Martina Hays, girl aviator and explorer, who has left Detroit for Fort Churchill and hopes to eventually reach the Mackenzie River. Miss Hays is ambitious to become a popular writer and much of her aerobical globe-trotting is in search of local color and atmosphere for her future writings. The photographs show Miss Hays in trim flying costume.

No Night Driving In Europe

Almost Impossible For Material To Obtain Service After Dark

There is almost no night driving done in Europe and the motorist continuing out after twilight finds deserted roads, according to the Foreign Travel Division of the American Automobile Association.

The national motor body says: "There is almost no night driving done in Europe. The driver who would like to find himself in a deserted road. Everything is closed up. Houses and shops are darkened. The only sign of life comes from the lights of a few houses and the lights of a few cars on the highway."

Without the use of a single nail or screw, Burton has constructed a table that many antique collectors would like to have. The table is constructed of 1,557 pieces of wood, 17 different kinds being used to give the desired color and texture.

STRIKING EVIDENCE Popularity of Durant car is no myth According to Production Reports

Nothing evidences of the increasing popularity of Durant automobiles is so conclusive as the fact that during the first four months of this year, the production exceeded that of the entire year of 1934 by nearly 50 per cent. In one month, April, production equalled approximately one-half the entire output for 1934.

During the winter a new assembly building was erected to house

the executive and office staffs and the space made available by this change was immediately taken over by the production department to increase its production facilities. Even with this additional space and equipment it was required the best of concentrated effort to keep pace with demand, so that the popularity of Durant cars spread throughout the Dominion.

The sales executive attribute this condition to the enthusiasm of Durant owners, who seem to have come flocking about the good qualities of their cars.

"You must be proud of your old car," said the tourist. "I understand you're 104 years old."

"Proud of him? Why he ain't done nothin' but get old, and it's taken a plaguy long time to do that."

Mrs. Higgins, who was reading a newspaper, observed to her husband that it contained an article entitled, "Women Work for the People Mind."

"They usually marry them, my dear," remarked Mrs. Higgins, sweetly.

"What did your father say when he found David kissing you?"

"Nothing. He thought Dave was one of the boys I'm engaged to."

DEPARTMENT OF AGRICULTURE TESTING CHEMICAL WEED DESTROYERS

It has come to the attention of the Department of Agriculture that certain persons have been recommending to farmers a chemical preparation for the destruction of noxious weeds, and in published statements testifying to the value of this preparation have represented themselves as being connected at the time with the department.

This creates an impression which should be corrected, and it may be pointed out that the department accepts no responsibility for statements of this kind from unauthorized sources. Experiments have been carried out by the Field Crops Branch of the department during the past year to determine the efficiency of the various chemical weed destroyers which are now on the market, and further intensive tests are being conducted this year under the direct supervision of the Field Crops Commissioner. At the conclusion of these experiments, an official statement of the results showing the comparative value of these chemicals will be issued, and until that time no reports as to the findings of the department in this connection can be considered as authoritative.

A pretty girl was wearing the very latest in bathing suits. She was sitting on the beach when a young man approached her and took off his hat, remarking that it was a fine day.

"How dare you speak to me!" said the girl indignantly. "I don't know you from Adam."

Notice

Notice is hereby given that all persons having claims on the estate of the said Joseph Howard Brewer, who died on 5th January, 1935, are required to file with the undersigned by 1st July, 1935, a full statement duly verified of all their claims and of any securities held by them and that after that date the Executor will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to her attention.

Dated this 20th day of May, A. D. 1935
ROBERT McLEAN, K. C.
Solicitor for the Executor of the Will of the said deceased

OLDEST PONTIAC CAR FOUND IN THE P. R. A.

What is believed to be the oldest Pontiac car in existence today was recently discovered by General Motors scouts. General Motors did not know that any Pontiac cars had been built previous to a few years ago when that company began building Pontiacs. But recently an ancient bus with high steel rimmed wheels and a two cylinder motor that was cranked on the side was unearthed on the side of the body it is believed was fastened, bearing the inscription "Pontiac, No. 39, 1907".

The car was made by the Pontiac Vehicle Co. of Pontiac, Michigan, and despite the number 39, records found would indicate that not more than 10 of these cars were built and placed on the market. The Pontiac Vehicle Co. was not related in any way to the Pontiac Motor Co. which later was absorbed by General Motors.

It is a car for old times. No. 39 to the 1929 model which is a triumph of modern automobile engineering in the low priced car line. The manufacturer of the Pontiac claim they have one of the oldest cars built, and at the same time a car that carries many features and refinements found in higher priced cars.

MINERAL SURVEY IN FAR NORTH

During the coming summer an investigation of the mineral and other natural resources of the Coppermine River, situated on the Canadian Arctic coast will be undertaken by Major L. F. Thurston, exploration engineer of the Department of the Interior. Special attention will be paid to determine the extent and value of deposits of copper which are understood to exist in this far northern section of the Northwest Territories.

FOUNDRY COMPANY TO BE BUILT IN CALGARY

It is announced from Calgary that a five acre site has been purchased from the city by the Anchor Foundry Co. of Toronto and Winnipeg. It is expected that construction will be started later in the year on a factory for the production of steel pipes, radiators, boilers, and other foundry special work.

WORLD HAPPENINGS BRIEFLY TOLD

Dame Emile Charlotte de Balth, better known as Lily Langtry, left \$237,225.

Canada is the only Dominion that recorded an increase in British immigration in 1928.

Without explanation of the delay the post office has delivered to Clifford C. Gilbert of New Haven, Conn. a letter mailed October 15, 1912, to Hartford.

After an illness of many months, Senator Robert Watson, 74, pioneer of the prairies, and for years prominent in western political circles, died at the home of his daughter, Mrs. J. H. Watson, at Chicago, Ill.

Word of the death of Peter Richter, engineer on the first train to enter what is now Vancouver, on May 21, 1887, was received by D. C. "Old Man" Watson, Canadian Pacific Railway, Mr. Richter died at his home in Vancouver.

Harbor improvement bills, passed in the House totaled \$100,000 for Montreal Harbor, \$100,000 for Vancouver Harbor, \$5,000,000 for Halifax Harbor, and \$200,000 each for the harbors of Three Rivers and Chicoutimi.

The West Indies is considering establishing a trade conference in Canada. Sir Edward Davies, chairman of the West Indies conference, stated at Ottawa, Sir Edward is investigating trade possibilities in Canada.

Among the entrance scholarships awarded at the University of Canada, College, are:

The Gordon Southern Number 1 (value \$500 a year for three years)—Robert Kay Gordon, Edmonton, Alta.; Number 3 (value \$500 a year for three years), Edgar Stanton, Edmonton.

Alberta Has Surplus

Closes Fiscal Year With More Money Left Over Than Ever Before

Alberta closed the fiscal year ended March 31, with more money left over in the provincial treasury in excess of expenditures than ever before in the history of the province. \$1,817,871 being the amount, according to an announcement made by Provincial Treasurer Hon. R. G. Reid. The surplus for the previous fiscal period, ended March 31, 1928 was \$275,767, covering 15 months, because of the change of the fiscal year dates adopted last year.

Record Of Earthquakes

On the average over 700, earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. The majority of these, however, do not involve any serious disturbance anywhere, and comparatively few originate in Canada.

There's always a trick in it. They sell you a car or a phonograph on credit, and then demand cash for gas and dance records.

The largest Bible in the world is a manuscript Hebrew Bible in the Vatican. It weighs 320 pounds.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Adams, Ont. writes: "Several years ago I was troubled with my hands and feet so bad, at times my hands would become numb and cold. I got doctor's medicine, for a while but it did me little or no good. I supposed to see

Will Search For Italia's Crew

Norwegian Vessel Is Fully Equipped For Long Voyages

An Italian expedition headed by Gianni Albertini left Bergen aboard the Norwegian steamer "Bucca," to search for the lost members of the crew of the Polar dirigible Italia, which crashed in the Arctic last summer.

The party of 18 men on the "Bucca," which was formerly the Helms, will have spent several days in Franz Joseph Land for the so-called "Bucca" party—the men who were carried away in the bag of the Italia after the crash. The men in the Italia's gondola, under Umberto Nobile, were rescued.

The "Bucca" is fully equipped with sledges and dogs and wireless apparatus. The vessel stopped at King's Bay to take on more dogs before starting its long cruise. It is provisioned for 18 months voyage.

Italy Has Ambitious Road Building Program

Fifty Thousand Men To Construct Motor Highways

Because Premier Benito Mussolini has ordered it, Italy soon is to embark on the most ambitious road building programme any modern European state has attempted. Perhaps the largest since the famous road builders of ancient Rome took their art into Britain. Within five years every corner of the peninsula will be accessible to the motorist. In all 40,000 miles of new motor highways are to be constructed. Fifty thousand men are to be engaged in working out the programme.

Problem Still Unolved

Wireless Has Not Yet Been Adapted To Mine Rescue Work

A place in radio's hall of fame and probably a fortune await the man who will design wireless apparatus that can be used successfully in mine rescue work.

While the use of radio on land, at sea, and in the clouds has advanced with amazing swiftness, its underground utilization has baffled engineers who have spent years trying to devise a practical means for communicating with entombed miners.

Experts who have been conducting experiments for the bureau of mines since 1922 reached the conclusion that radio as developed today does not solve the underground message problem.

The bureau temporarily has abandoned its efforts to develop radio for this work and is concentrating on the improvement of the mine telephone and geophone as offering greater immediate usefulness.

There are two obstacles to the feasibility of underground radio—penetration of the earth by radio waves and designing a set which will be powerful enough to receive the feeble signals after they have been reflected.

Although signals have been received at some depth in mines in the eastern part of the country, it was suspected they were carried into the mine through open shafts and over the wiring and piping systems. Actual penetration of shafts was thus doubted out by signals received from shaft and metallic conduits.

Status Of Dominions Will Be Considered

Representatives Called To Meet In London Next October

It has been learned that the first practical step toward preparing the next Imperial Conference, was taken in summoning representatives of the dominions to meet in London next October.

The questions to be considered include the defining of the status of the Dominion General as representative of the King in the dominions of Dominion legislation and merchant shipping.

It is likely that Premier Mackenzie King, of Canada, will be the Dominion prime minister to attend the October gathering, which will be an inter-departmental committee as proposed by the last Imperial Conference in 1926. The decision to summon the meeting in October was announced in the Speech from the Throne, read at the prorogation of parliament May 10.

Only those who have no worries can afford to look worried.

Wife Of Mr. Amery Is Native Of Whitley, Ont.

The better half of Mr. Amery is Canadian. He married the charming Florence Greenwood, of Whitley, Ont., whose brother is Sir Hamar Greenwood, also a member of the British Parliament and the last man to fill the office of chief secretary for Ireland.

Mr. Amery is short in stature but broad in shoulder. He has thoroughly soaked his muscle as well as his brain. He took a "dive" into the sea and became a man of the sea. For a spell he was an editorial writer on "The Times" and a correspondent for the paper in South Africa.

He sits in Parliament for one of the Birmingham divisions and is a wholehearted protectionist. It is generally assumed to have been entirely due to him that in 1923 Mr. Baldwin appealed to the country for a mandate to introduce protection, a mandate which was emphatically refused.

An first lord of the admiralty Mr. Amery was responsible for the Singapore naval base scheme. When he was appointed secretary for the colonies and dominion affairs—this double name was adopted after a year after his appointment—he reached an office entirely after his own heart, though some of the government newspapers have regarded the appointment with misgiving.

Early last year he concluded a six months' tour of the empire. One Conservative paper described him at the time as returning "more than satisfied with the result of his first-hand examination of British overseas," another Conservative organ said he had covered 50,000 miles in point of space, adding it would hate to guess how many miles of newspaper type he had covered in point of speech.

Carload Of Muskrats
One Thousand, Animals Shipped From Oak Lake To Germany

From Oak Lake to Germany, one thousand muskrats were shipped for Hamburg, Germany, last week at the end of April, via the Canadian Pacific Express, there being 1,000 animals in the shipment. They were trapped in the Oak Lake breeding grounds and shipped in boxes by Pury Limited, each box containing twelve pairs. This is believed to be a record shipment.

Man's Highest Bridge
The new Grand Canyon Bridge on the Arizona Highway, is 455 feet in height, and therefore beats the hitherto unassailed record of the Victoria Falls Bridge by its 425 feet from the river's bed.

The English walnut is not a native of England, but comes from the mountains of Greece, from Persia and from Afghanistan.

Here are two francs, and, if you know anyone who is complaining of indigestion, give them a box of Wrigley's.

"Good! The innkeeper at the corner is complaining that his customers are as usual,"—Moushique, Charlott.

Hubert: "I say, Alice—do you know where the deer my shaving came from?"

Wife: "Oh, my dear—I'm so sorry. I used it yesterday to enamel over the bathtub and it's in a jam-pot of turpentine down in the scullery!"

Father: "Jimmy, did you lick the little Jones boy?"

Jimmy: "You told me to." Father: "I told you to! Why, my son, what do you mean?"

Jimmy: "Didn't you tell me the other day that it was more blessed to give than to receive?"

Father: "Yes, but—"

Jimmy: "Well, I had to give him a lickin' or receive one."

When Food Fours

About two hours after eating many people suffer from "sour stomachs." It is called indigestion. It means that the stomach has not been able to digest the food. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

Lydia E. Pinkham's Vegetable Compound is a pleasant, efficient, and safe remedy for indigestion. It is a natural, healthful, and safe remedy for indigestion. It is a natural, healthful, and safe remedy for indigestion.

The Desert Song

—BY—
VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.
"Desert Song" is a Warner Bros. production. It is a story of love and adventure in the desert. It is a story of love and adventure in the desert. It is a story of love and adventure in the desert.

CHAPTER I

Greedy the copper coin of the sun was tossed by some invisible hand into the coffee of the moon. Now a purple radiance suffused the burning sands till the deepening twilight gradually wrapped its cloak all around.

A few hours before a pure silver moon had been in the cloudless daylight sky, but as night descended, the moon assumed a golden red and seemed to retain, concentrated in its mellow tints, all the glow and color of the desert landscape that was now clothed in a nocturnal mantle.

Out of the range of the moon's brightness silver stars began to show their glinting lights. A soft cool breeze slowly blew up, shifting the sand drifts into new undulation that stretched far to horizons. The maddening silence was so intense as to be almost audible.

One would have sworn that not a human being dwelt within twenty leagues of the spot. "There's all out once there in the infancy of desert space, some a faint stirring. For a moment nothing was seen but as the stirring grew to a definite far-off sound, under the right light of the orange moon there appeared a tiny speck across the sand and sky near the distant horizon. Over the crest of the dunes another speck appeared, followed by countless others. But now the leader was distinguishable as a rider on a foot-stepped horse, followed by the ribbon of their desert robes. They had in urban and flowing robes their rides held high in their right hands to proclaim their warring spirit.

The swish of gliding robes raising granules of sand in a dusty trail behind them was at first the only sound to break the stillness. But as the last rider came into view over the crest of the distant slopes the voices of a hundred men filled the

air.

stains must kill us all!" shouted out of them hastily.

"May evil bring goodness upon Pontaine and Margot Bonvallet!"

CHAPTER II

Every line of his straight nose proclaimed the fighter. He wore a loose, bright scarlet tunic, the hood of which was laid down around his forehead by a white band.

He was about his twentieth year, his eyes bright and his second was beneath the folds of his cloak. His chin suggested that his face was as handsome as his physique, but one could not be sure of this because his cheeks and eyes were concealed behind a scarlet mask. This which he always wore, had helped to surround him with an aura of mystery for even his close henchman had never seen him without it.

With a wave of his hand, the Red Shadow signaled his followers to be at ease. They relaxed from their military attitude, and segregated into small groups. Their leader approached Sid El Kar and Haat, who was another of his trusted fighters in spite of his advancing years.

"I overheard this talk of Captain Pontaine," he said. "And I scorn his threats! I do not like the reference to this girl they call Margot."

His listeners looked up in surprise. Then he continued, addressing himself to the Frenchman, "I want your promise. The sign of the Heart and the Headly given."

"It is gladly given," affirmed the Frenchman, placing his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signified a sacred pledge.

"The Frenchman," he said, "I want your promise. The sign of the Heart and the Headly given."

"It is gladly given," affirmed the Frenchman, placing his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signified a sacred pledge.

"The Frenchman," he said, "I want your promise. The sign of the Heart and the Headly given."

"It is gladly given," affirmed the Frenchman, placing his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signified a sacred pledge.

"The Frenchman," he said, "I want your promise. The sign of the Heart and the Headly given."

"It is gladly given," affirmed the Frenchman, placing his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signified a sacred pledge.

"The Frenchman," he said, "I want your promise. The sign of the Heart and the Headly given."

"It is gladly given," affirmed the Frenchman, placing his right hand over his heart, then raised it solemnly to his forehead in the desert ritual that signified a sacred pledge.

"The Frenchman," he said, "I want your promise. The sign of the Heart and the Headly given."

C.N.R. Summer Schedules

Canadian National Announces
Changes in Its Summer Schedules
For Summer Months

"The Confederation" running on the Canadian National Railways between Toronto and Vancouver, will be replaced by "The National," which runs between Toronto and Winnipeg.

The first westbound "Confederation" left Toronto on Sunday, May 19, and another set of equipment left Winnipeg on the same day. The westbound train will reach Edmonton at 3:20 p.m., leaving at 4:00 p.m., and arriving at 5:00 p.m.

Other time table changes announced by the National system include Calgary-Edmonton-Train 13, which will leave Calgary at 8 a.m. on May 20, and arrive at 1:00 p.m.

Edmonton-Alliance will leave at 4:50 p.m., instead of 4:55, effective May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Hanna-Wardlow will leave at 4:45 a.m. instead of 4:50 a.m., arriving at Wardlow half an hour earlier; in effect May 21. In the opposite direction the train will leave Winnipeg at the usual time but will arrive at 1:00 p.m. instead of 1:05.

Mr. Woodward spent Friday in Calgary.

Mrs. Miller, Mrs. Welch, Mrs. Kuch, Mrs. Gahan and Marjorie, spent Thursday afternoon in Bassano.

Mrs. O'Hare returned from Medicine Hat and Jenner on Saturday.

SUCCESSFUL PUPIL AT
"ALTA. MUSICAL FESTIVAL"

Four girls represented Bassano and district at the Alberta Musical Festival held in Edmonton. Phyllis Plumer in junior piano obtained a mark of 79, while Frances Liville, of Blainmore, won the competition with 85, thereby winning the Edgewood Musician's shield for highest marks in all junior instrumental classes.

Eleanor Hedderberg and Gladys Fortney received from Lieutenant Governor Egbert the silver medals for the intermediate piano duet class. They were the only competitors, but in order to gain the medal the marks must be 70 per cent or more. The girls were given 75 marks, with special mention being made of their being very good soloists, but lacking in ensemble playing. Much credit is due the girls for opportunities for ensemble work were very limited.

In the junior piano sight-reading class Eleanor Hedderberg obtained 81, and Gladys Fortney 75. The winner, Hazel Wilkinson, of Calgary, was awarded 84.

Edith Selbridge, of Glenora, now studying in Calgary, competed in both the open piano sight-reading and open piano accompaniment. The classes marked "open" have no age limit, nor does any qualification bar them, professional or otherwise.

KNOX PRESBYTERIAN CHURCH
Rev. P. C. McCrae, minister
